

ASHRAE JOURNAL 1979 EDITORIAL INDEX VOLUME 21

SUBJECTS

AIR CONDITIONING

Air Conditioning Usage Study Equivalent Rated Load Hours, 6/43
More Glass, Less Refrigeration: A Compatible Idea?, 2/31
The Return to Evaporative Cooled Condensers in Small Tonnage Systems, 2/36
Stratification by Design, 4/32

ASHRAE

ASHRAE Convenes in Philadelphia, 4/48
The ASHRAE Fundamental Building: An Investigation of the Thermal Comfort Alternative, 8/62
ASHRAE's Future: Commitment, 8/29
Ventilation, Health and Energy Consumption: A Status Report, 7/23
ASHRAE Research: Conservation, not Conversation, 10/83
ASHRAE Research: From Concept to Implementation, 9/72
ASHRAE Research: Refrigeration, Cooling Storage and Load Management, 12/35
ASHRAE Research 1979-1980, 10/56
Blue Ribbon Award, 12/55
Chapter Officers, 12/56

COMMENT—In the Parlane of the Gods, 1/5;
National Engineers Week—A Tribute, 2/5;
Insulation: A Very Special Issue, 3/5;
ASHRAE's Investment in Research, 4/5;

Three Mile Island: Where Do We Go From Here, 5/5; Energy Conversation, 6/5; The Guessing Game, 7/5; The Will To Survive, 8/5; No News Is Good News, 9/5; EBTR—Toward Wiser Energy Management, 10/5; The Solar Option, 11/5

Detroit, Renaissance Center, Site of ASHRAE's Largest Annual Meeting, 8/31
Exhibitors at International Air-Conditioning, Heating, Refrigerating Exposition, 1/65
New Products Introduced—ASHRAE/ARI Show, 4/58

New Standards from ASHRAE, 1/91
Officers, Directors, Committeemen, Staff, 1/94
On the Re-organization of the Standards Committee, 10/78

Presidential Award of Excellence, 9/82, 12/54
Prime Time Chatter, 10/54
Products to be Featured at the Show, 1/69
Solar Research Around the World, 2/40
Subject Index for Detroit Annual Meeting, 5/64
Subject Index for 1980 Semi-Annual Meeting, 12/52

Summaries of Technical Sessions, Symposia, Seminars, and Forums: 1980 Semi-Annual Meeting, 12/36
Summaries of Technical Sessions, Symposia, Seminars, and Forums: 1980 Semi-Annual Meeting, 12/36
Treasurer's Report, 12/59

BUILDINGS

The ASHRAE Fundamental Building: An Investigation of the Thermal Comfort Alternative, 8/62
A Commercial Building Ownership Energy Conservation Cost Analysis Model, 6/49
Energy Accounting System for Existing Buildings, 1/56
The Nation's Most Energy-Efficient Office Building, 11/31

COMFORT

The ASHRAE Fundamental Building: An Investigation of the Thermal Comfort Alternative, 8/62
Energy Conservation and Comfort—Are They Compatible?, 8/52
Thermal Discomfort in the Name of Energy Conservation, 8/57

COMPUTER

Applying a Computer Analysis Program to the Selection of Insulation Materials, 3/62

CONSTRUCTION

Anti-inflationary Restraint: Hard Times for Construction in '79, 2/22

ECONOMICS

Anti-inflationary Restraint: Hard Times for Construction in '79, 2/22
Toward an Accurate View of Payback, 2/28

ENERGY CONSERVATION

A Commercial Building Ownership Energy Conservation Cost Analysis Model, 6/49
Daylight and Energy-Conscious Design, 8/49
EBTR—Energy Conservation by Decree, 10/31
EBTR and Type II Compliance Systems, 10/38
Efficacy of Temperature and Humidity Ramps in Energy Conservation, 6/34
Energy Accounting System for Existing Buildings, 1/56
Energy Audits: Prophylaxis or Post Mortem?, 2/24
Energy Conservation and Comfort—Are They Compatible?, 8/52
Energy Conservation Around the World, 6/65
Energy in Review: Building Design, 1979, 6/31
The Nation's Most Energy-Efficient Office Building, 11/31
Power and Fuel Savings with Central A/C and Furnaces, 6/58
Reducing Residential Energy Growth, 1/41
Thermal Discomfort in the Name of Energy Conservation, 8/57
Toward an Accurate View of Payback, 2/28
The Winter Peak of Energy—Part II, 12/31

FLUE LOSS

Calculation of Flue Losses for High Efficiency Furnaces and Appliances, 1/49

FUME HOODS

The Rating of Laboratory Fume Hood Performance, 10/49

GEO THERMAL

A Retrofitted Geothermal Heating System, 5/45

GOVERNMENT

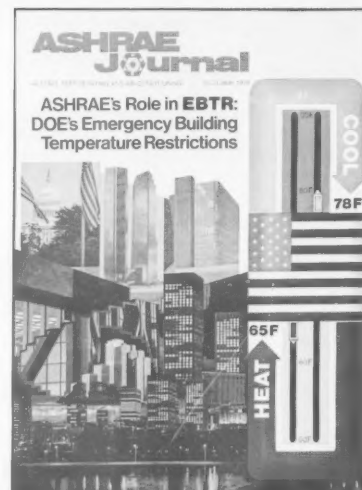

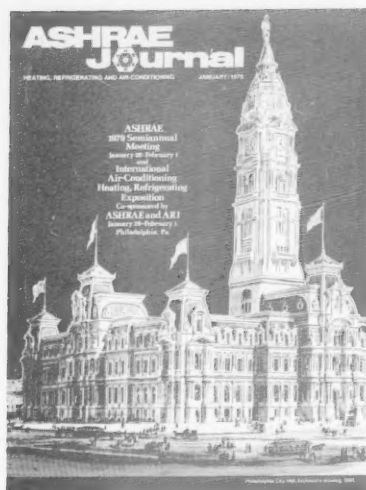

Dateline Washington, 1/34; 2/18; 3/26; 4/22; 5/14; 6/24; 7/20; 8/26; 9/30; 10/12; 11/28
DOE Update: Solar Standards, Codes, Testing, and Certification Program, 11/53
Federal Solar Strategies: DOE's Multi-Year Plans, 11/36
The National Program Plan for Building Thermal Envelope Systems and Insulating Materials, 3/39

HEATING

Calculation of Flue Losses for High Efficiency Furnaces and Appliances, 1/49
A Retrofitted Geothermal Heating System, 5/45

HEAT PUMP

Economics of Heat Pumping, 9/48
Heat Pump Design: Cost Effectiveness in the Collection, Storage and Distribution of Solar Energy, 4/35
Heat Pump Systems for District Heating and Cooling, 9/54
Heat Pumps: The Defrost Problem, 9/33

ASHRAE JOURNAL 1979 EDITORIAL INDEX VOLUME 21

SUBJECTS

AIR CONDITIONING

Air Conditioning Usage Study Equivalent Rated Load Hours, 6/43
More Glass, Less Refrigeration: A Compatible Idea?, 2/31

The Winter Peak of Energy—Part II, 12/31

FLUE LOSS

Calculation of Flue Losses for High Efficiency Furnaces and Appliances, 1/49

FUME HOODS

The Rating of Laboratory Fume Hood Performance, 10/49

GEOTHERMAL

A Retrofitted Geothermal Heating System, 5/45

GOVERNMENT

Dateline Washington, 1/34; 2/18; 3/26; 4/22; 5/14; 6/24; 7/20; 8/26; 9/30; 10/12; 11/28

DOE Update: Solar Standards, Codes, Testing, and Certification Program, 11/53

Federal Solar Strategies: DOE's Multi-Year Plans, 11/36

The National Program Plan for Building Thermal Envelope Systems and Insulating Materials, 3/39

HEATING

Calculation of Flue Losses for High Efficiency Furnaces and Appliances, 1/49

A Retrofitted Geothermal Heating System, 5/45

HEAT PUMP

Economics of Heat Pumping, 9/48

Heat Pump Design: Cost Effectiveness in the Collection, Storage and Distribution of Solar Energy, 4/35

Heat Pump Systems for District Heating and Cooling, 9/54

Heat Pumps: The Defrost Problem, 9/33

- A "Modified" Bin Method for Estimating Annual Heating Requirements of Air Source Heat Pumps, 9/60
New Testing and Rating Procedures for Seasonal Performance of Heat Pumps, 9/40

INFILTRATION

- Estimating Air Infiltration in Houses, 1/60
Evaluating Air Infiltration Energy Losses, 5/25
Impact of Reduced Infiltration and Ventilation on Indoor Air Quality, 7/49
Research: International Research on Air Infiltration in Buildings, 8/73
Schools: Air Tightness and Infiltration, 4/40
Simplified Determination of Air Infiltration or the Citizen as an Energy Manager, 7/44

INSULATION

- Applying a Computer Analysis Program to the Selection of Insulation Materials, 3/62
Cold Storage Insulation: The Vapor Barrier (Can We Get It Straight?), 3/36
Engineered Systems Approach: Insulating the Alaska Pipeline, 3/30
The National Program Plan for Building Thermal Envelope Systems and Insulating Materials, 3/39
New Concepts in Thermal Insulation Heat Flow Measurements—Requirements for Implementation, 3/51
Selected Porous Insulations for Cryosystems, 12/21
Some Problems with Insulation Over Suspended Ceilings, 3/46

INTERNATIONAL

- Research: International Research on Air Infiltration in Buildings, 8/73

REFRIGERATION

- Cold Storage Insulation: The Vapor Barrier (Can We Get It Straight?), 3/36
Selected Porous Insulations for Cryosystems, 12/21
Transport of Perishable Foods, 12/27
Understanding the Condenser Receiver System, 1/41

RESEARCH

- ASHRAE Research: Conservation, Not Conversation, 10/83
ASHRAE Research: From Concept to Implementation, 9/72
ASHRAE Research 1979-1980, 10/56
Research: Engineering and the Health Sciences, 11/78
Research: International Research on Air Infiltration in Buildings, 8/73
Research Note No. 12: Design Procedures and Selection Guide for Hot Water Coils to Attain a Well-Controlled System (RP-143), 1/87
Research—R&T: A Reassessment, 7/62
Research: Who is Responsible for Technical Judgement, 2/49
An Approach to Long Range Research, 4/69
Research: R&T Update, 6/69
Research—R&T: A Reassessment, 7/62
Don't Turn the Tables (or What You See is What You Get), 7/62
Research: International Research on Air Infiltration in Buildings, 8/73
Research Note No. 13, 9/71
ASHRAE Research: From Concept to Implementation, 9/72
Research Note No. 14, 10/85
Research Note No. 15, 11/78
Research Engineering & the Health Sciences, 11/78
Solar Research Around the World, 2/40

SOLAR

- Case History—Hybrid Passive/Active Solar System: Performance and Cost, 4/25
Design Study: Solar Systems for Commercial Buildings, 5/37
DOE Update: Solar Standards, Codes, Testing and Certification Program, 11/53
Don't Turn the Tables (Or What You See is What You Get), 7/62

- Energy Storage for a High Temperature Solar Heating and Cooling System, 8/43
Federal Solar Strategies: DOE's Multi-Year Plans, 11/36
Heat Pump Design: Cost Effectiveness in the Collection, Storage and Distribution of Solar Energy, 4/35
Photovoltaic Impact Predicted by 1986, 11/56
Pollution Crisis: Solar Remedy?, 11/57
Prof. Wood and the Curious Case of the Rock Salt Greenhouse, 11/74
Solar Research Around the World, 2/40
Solar System Performance Evaluation Techniques—The "Mimic Principle", 11/64
Viewpoint: The Solar Rowboat, 11/40

STANDARDS

- DOE Update: Solar Standards, Codes, Testing and Certification Program, 11/53
New Standards from ASHRAE, 1/91
On the Re-organization of the Standards Committee, 10/78
Status of ASHRAE Standards, 8/73
Status of ASHRAE Standards, 9/72
Status of ASHRAE Standards, 10/83

VAPOR BARRIER

- Cold Storage Insulation: The Vapor Barrier (Can We Get It Straight?), 3/36

VENTILATION

- Influence of Mechanical Ventilation on Moisture Content of Bathroom Air, 7/54
Impact of Reduced Infiltration and Ventilation on Indoor Air Quality, 7/49
Impact of Reduced Infiltration and Ventilation on Indoor Air Quality, 7/49
Radioactivity (Radon and Daughter Products) as a Potential Factor in Building Ventilation, 7/30
The Rating of Laboratory Fume Hood Performance, 10/49
Savings through CO₂ Based Ventilation, 7/38

AUTHORS

- ALLEN, CHARLES J.
Stratification by Design, 4/32
